The west Pokot county urban investment plan has been prepared through a consultative process involving varied stakeholders within the county. The draft was developed by the county Programme coordination team to respond to the needs of the growing population of Kapenguria Municipality. Municipality forums comprised of members of public, county Development partners, county professionals and Civil Society Members. The role of community was identification and prioritization of Programmes and projects.

2. Context

Kapenguria Municipality faces a myriad of development challenges. It lacks county policy on urban planning and development control, county Urban Integrated Development Plan and local physical development plan. Most roads are not all weather with poor drainage system and consequently pose major transport challenges during rainy seasons. There is no designated solid waste dumpsite. The county also lacks adequate health facilities, play grounds, tertiary institution and housing. Poverty and unemployment level are also high.

The priorities for the plan period 2023-2024 include; Finalization of Kapenguria Spatial Plan, Preparation of Kapenguria integrated Development plan (IDep 2025-2029). Other medium term priorities for the sub-sector comprises of: Review of Kapenguria Municipality Solid Waste Management Policy, mapping of projects, civic education and public sensitization on Municipal policies, town beautification, construction of Water hydrant for the Fire station, street lighting, maintenance and Upgrading of town roads.

Main Objectives

The main objective is to promote sustainable urban development and management for the realization of Kenya Vision 2030 goals and objectives. The specific objectives are;

- To improve Connectivity, Mobility and accessibility within Municipality
- To improve Solid Waste Management systems
- To address Storm Water Drainage within Municipality
- To improve Fire and Disaster Management
- To Address Water Supply in the Municipality
- To improve Urban Social and economic Infrastructure
- To address Wastewater and faecal Sludge Management

Brief overview of activities already undertaken

Construction of pavements in two streets, installation of street lights, construction of two public toilets, Construction of Fire station, Maintained and Upgraded Roads, Construction of Kapenguria recreational Park, construction of market stalls, Prepared Kapenguria IDep 2019-2024 and Solid Waste Management Policy.
